World premiere in Basel

Another landmark of the city was added to the list of obstacles at the occasion of the competition for the Golden Drum of Basel: one of its most famous buildings, the BASLER RATHAUS will be shown at the arena at the LONGINES CSI BASEL. The jump DREILÄNDERECK was shown on the Basel course for the first time last year as the first in this new category of jumps. The 'Obstacles of Basel' offer an opportunity for the people behind the LONGINES CSI BASEL to acknowledge the good cooperation between the city and the organisation. As an added bonus, Basel's sights are shown to the world.
