Students' drawings in the focus of the cameras

The focus on the first day of the LONGINES CSI BASEL is not only on the horses and their riders. Twelve selected drawings by students from both cantons of Basel also get their share of the attention. Tele Basel specially covers this topic on Thursday evening in Zeitfenster Sport. Several children were asked about horses and the reason for choosing the subject in their paintings.

700 children were invited to visit LONGINES CSI BASEL for free on Thursday within the framework of this campaign.
