a world-class riding event

The organisers of the LONGINES CSI BASEL can look back on a great and successful tournament. Once again the starting field was excellent, and the level of sportsmanship provided was first-rate. Moreover, the record number of accredited journalists is a reflection of the increase in media interest. Another record number was achieved: 21'300 people watched the four days of tournament, a larger amount than ever before.

The organising committee is already looking forward to the 10th edition of the LONGINES CSI BASEL from 10th to 13th January 2019. Fitting for this anniversary, the event will have World Cup status for the first time.
